

MAGNUS JOHNSON GIVES TESTIMONY IN CASE

BRINGS CRIMINAL ACTION AGAINST

A. N. JACOBS

LATTER WAS FORMER CAMPAIGN MANAGER FOR U. S. SENATOR SCHALL

FORMER SENATOR TESTIFIES HE WAS IN EAGLE BEND AND LITTLE FALLS

(By United Press)
Minneapolis, April 29.—It was another Magnus Johnson who was arrested for being drunk and disorderly in Minneapolis a year ago, former U. S. Senator Magnus Johnson contended in district court today. He brought criminal libel proceedings against A. N. Jacobs, former campaign manager for U. S. Senator Thomas D. Schall.

Jacobs, editor of "Scandal — the Naked Truth," a paper which appeared once during the senatorial campaign last fall, published an article pretending to show that the then senator had been fined \$10 for drunkenness in Minneapolis May 8, 1923.

The former senator showed today that he visited some of his wife's relatives in Eagle Bend, Minn., May 7th, last year and spent the night with them. He drove to Little Falls the next day, he said, and had dinner there with Adjutant-General W. F. Rhinow. He presented in evidence a cancelled check cashed in Little Falls May 8th by A. F. Landan, a druggist there.

Adjutant-General Rhinow appeared on the witness stand and corroborated Johnson's testimony. The Magnus Johnson who actually was arrested in Minneapolis on the date in question lived on a farm near Faribault and was in court today. He did not testify, however.

BUCK O'CONNOR IS CONVICTED ON MURDER CHARGE

IMMEDIATELY SENTENCED TO LIFE IMPRISONMENT BY JUDGE PARSONS

O'CONNOR LITTLE AFFECTED, CONTINUES HIS CAREFREE ATTITUDE

(By United Press)
Wadena, Minn., April 29.—Buck O'Connor, now serving an indeterminate sentence in Stillwater prison for forgery, was convicted last night on a first degree murder charge for the killing of John Goings, Carrington, N. D., farmer. O'Connor was immediately sentenced to life imprisonment by Judge William L. Parsons of Fergus Falls.

Continuing his carefree attitude maintained throughout the trial, O'Connor smiled when the verdict was read after five hours' deliberation.

A smile was his only answer when Judge Parsons' sentence was pronounced.

The state sought to show that Goings was slain by O'Connor while the two men, accompanied by Eddie Helm, who is still at large, were traveling in Goings' automobile from Carrington to Minneapolis. O'Connor is serving a penitentiary term for forging Goings' name to travelers' checks and the state contended robbery was the motive for the murder.

O'Connor occupied the stand for five hours. Featuring his testimony was the introduction of a fourth man whom he said rode in the car on the Minneapolis trip. The man had not been mentioned in prior police statements obtained from O'Connor.

Goings' body was found in a cornfield near here last January. The skull was crushed and riddled with bullets. The arms were tightly bound behind the back and the corpse frozen.

Some people think home is merely a place to stay away from.

Hindenburg Favors Safety Pact in All Europe

BULGAR OFFICIALS NIP RED PLOT TO KILL AUSTEN CHAMBERLAIN

(By United Press)
London, April 29.—The Central News learned today that Bulgarian officials have discovered and frustrated a communists' plot to assassinate Austen Chamberlain, the foreign minister.

The Central News declares a friendly foreign legion informed the government regarding a plot to kill Chamberlain. Officials promptly investigated and established the fact that the report was accurate, whereupon Scotland Yard was notified "and the necessary steps taken to insure Chamberlain's protection."

BULGARIA HAS ACCEDDED TO SERB DEMANDS

FRAMING NEW NOTE CARRYING EXPLICIT APOLOGIES

RECENT ACCUSATIONS MADE AGAINST SERBIA WITHDRAWN

(By United Press)
Vienna, April 29.—Bulgaria has acceded to Serbia's demands and is framing a note containing new and explicit apologies. The United Press correspondent at Belgrade learned that M. Walkareli, the Bulgarian ambassador, informed the Serbian government that the new note would explain and apologize for recent accusations against Serbia.

The latter note is reported appended.

The Serbs were aroused to threaten a break in diplomatic relations with Bulgaria after several ministers of the Kalkoff government had been quoted as saying that the recent abortive revolution and subsequent outrages had been planned across the border in Serbia.

HURRICANES RAGED IN TEXAS, MANY INJURED

WIND, RAIN AND HAIL DELUGED SECTIONS OF THE STATE

FEDERAL BUREAU OF CROPS SAYS RAIN HELPED CROPS

(By United Press)
Houston, Texas, April 29.—Wind, rain and hail swept this section last night, reaching hurricane proportions at some places.

Fourteen persons were reported injured at Kyle, Texas, north of San Marcos. Telephone and telegraph service at that place was cut off.

One woman was injured here. Lightning struck a fire alarm box bringing all stations out in the worst of the storm on a general fire alarm.

Small buildings, out buildings and trees were blown over in the outer edge of the city.

H. H. Schultze of the federal bureau of crops estimates, said the rain was of inestimable value to growing crops.

Advocates State Police
Opponents of the bill to create a state constabulary do not seem to be conscious of the fact that modern methods are needed to cope with bank bandits and other criminals who are now operating with impunity. It probably will be some years before they can be made to recognize this need, and in the meantime the yeggs will make good use of Minnesota's splendid highway system—as yet unencumbered by police officials. —St. Peter Herald.

PREDICT THAT UNITED STATES OF EUROPE MAY COME

EASTERN GROUP EXPECTED TO ORGANIZE AND GET TOGETHER

WESTERN EUROPEAN COMBINATION TO TAKE CARE OF CONTINENTAL DISPUTES

(By United Press)
Geneva, April 29.—With the regular meeting of the Little Entente at Bucharest on May 20, the first definite steps will be taken towards the future "United States of Europe."

It is at this meeting that Foreign Minister Benes of Czechoslovakia will present to the other foreign ministers of the Little Entente, namely, Roumania and Yugo-Slavia, the proposition for a complete grouping "eastern front" European nations that is expected to work hand in hand with the "Western Front" group, which England is now striving to form.

Once the two groups are formed it is hoped they may eventually be welded into a single defensive group, which would constitute virtually an all-European defensive alliance or a veritable "United States of Europe."

The formation of such a group, which would definitely settle the question of European peace, or at least put the matter of the maintenance of European peace up to the Europeans themselves, would render it possible, League of Nations circles are convinced, for the League to go ahead with a World-wide peace project, based upon obligatory arbitration.

Admittedly the greatest obstacle now in the road of obligatory arbitration is the unwillingness of America, Asiatic and Insular countries to be pledged to come to the help of Europe everytime a purely European outbreak may occur. If Europe can guarantee her own peace, the rest of the world will have little difficulty in getting together for taking care of outside European disputes.

As the situation now stands on the eastern European front, there are three separate elements, all of which are under the same German and Russian menace.

These are the Little Entente, composed of Czechoslovakia, Roumania and Yugo-Slavia; Poland, which to date has remained isolated as far as eastern front alliances are concerned, and, finally, the Baltic states of Latvia, Estonia and Lithuania.

For the moment the three Baltic states are well grouped amongst themselves in a common defensive alliance and they hope that as soon as the differences between Lithuania and Poland, relative to Vilna and similar questions, are settled, that they can present a concrete proposition to Poland for a defensive alliance.

The Baltic block as a whole, it is declared, would be able to associate itself with Poland on a basis of equality as regards military strength and other resources.

Benes then hopes to secure the adhesion of this Baltic-Polish block with the Little Entente, to which it is expected that Greece will also adhere. This latter proposition will be discussed at the Bucharest meeting.

While Benes is trying to negotiate this pact of guarantee for the eastern front, it is expected that Chamberlain will make similar progress with his five-power pact of England, Belgium, Italy, France and Germany on the west.

Once the two groups are organized it is hoped that such outside nations as Spain, Austria, Hungary and the Scandinavians can be induced to throw in their lot with one or the other groups.

With all Europe then embraced in one or the other of the two groups, and with both groups organized on precisely the same fundamental principles, it is believed little difficulty would then be secured in bringing about an amalgamation under the

Greek Refugees In Plea For British Aid

London, April 29.—Failure of the British public to support its refugee relief work in Greece will probably cut off 50,000 refugees from the British feeding kitchens after April 30th. The situation is so serious that 20,000 refugees decided to make a graphic representation of their need to the British Legation in Athens by parading past the Minister's residence with banners urging reconsideration of their need. The American Near East Relief has agreed to take over a part of the British work until a renewed appeal can be made through the Lord Mayor of London.

YOUNG BOY KILLS FATHER IN CHISHOLM

MELLO GHILARDI, 20, CALMLY ADMITS PLANNING MURDER

BOY'S MOTHER IS PATIENT IN INSANE HOSPITAL OF TWIN CITIES

(By United Press)
Chisholm, Minn., April 29.—Bloody footprints on the kitchen floor told little Ida Ghilardi, 15, of the tragedy she long had feared—and lead authorities to the solution of a patricide not unlike the Dorothy Ellingson case in San Francisco.

Mello Ghilardi, 20, shot and killed his father, Egidio, 40, when the latter tried to force the boy to go to work.

Today Mello's confession was written in the court records and he was taken to Duluth to await grand jury action. He waived preliminary examination in circuit court late yesterday.

Mello was known as a "bad boy." He would not go to school and he would not work. While his father slaved as a laborer for the village the boy "snatched" money from the meager earnings of his parent and spent it playing pool and drinking. He had been arrested many times for drunkenness and not long ago served time for the theft of an automobile.

His father remonstrated with him and the boy became angry. Today he admitted that he had planned the murder for several days. Late Monday the chance he awaited arrived. His father was working in the basement of their home. Mello smuggled a shotgun into the basement, took aim and fired, according to police. The charge entered his father's eye and carried away the upper portion of his skull. The boy dragged the body into a coal bin, took \$20 from his father's clothing, placed the gun in such a position that it would indicate suicide, washed his hands in the kitchen and went down town to play pool.

Little Ida returned from school and with horror saw the bloody footprints of her brother on the kitchen floor. In terror she ran to the home of her uncle, Regio Gloni, and told of her fears. The uncle went with her and they discovered the father's body in the coal bin. Authorities were called in.

When they found Mello in the pool room he calmly racked his cue and accompanied the officers. He said he argued with his father and that the latter struck him. Then he fired. Police say the boy finally admitted, however, that he had planned the murder for days. The boy's mother has been a patient in an insane hospital near the Twin Cities for several years.

auspices of the League of Nations.
In addition to this project the Bucharest meeting will have several other subjects of common policy. The most vital one of these will be relative to what common measures can be taken to meet any possible effort of the Soviets to take back Bessarabia from Roumania. This, it is conceded, remains a serious war menace, not only for the Little Entente, but for Europe generally.

CLAIM GOLF LINK MURDER MYSTERY SOLVED

FRANK KOCUREK, A FORMER ARMY COOK, ARRESTED IN CHICAGO

POLICE SUSPICIOUS WHEN HE IDENTIFIES HEADLESS, ARMLESS REMAINS

(By United Press)
Chicago, April 29.—Solution of the Budlong golf links' murder mystery appeared near today with the arrest of Frank Kocurek, 30, former army cook and now manager of a chain of restaurants. Kocurek's 23-year-old wife disappeared last May and according to a police informant, the prisoner threatened her life.

Police announced the finding of a 12-inch knife in Kocurek's home. Stains on it are to be subjected to chemical analysis in the belief that they were caused by blood. A stained mat also was found in the house.

William E. Littleton, rooming house proprietor, quoted Kocurek as follows:

"I intend to kill her and when I do, I am going to use my army experience as a butcher and kill her in such a way that should what's left be found, no one will ever be able to tell who she was."

When confronted with Littleton, Kocurek denied having made the statement. Then he became hysterical and cried out that he might have made the threat, but did not recall doing so.

Mrs. Kocurek left him about a year ago, the man said. He said he has heard from her from time to time. Police have secured a letter written to Kocurek by his mother-in-law of Ecorse, Mich., in which she accused him of beating his wife and stating in part:

"It must be you who has done away with her."

Kocurek was taken into custody when he identified the dismembered torso as that of his wife. Police became suspicious at his ability to identify the headless, armless and legless remains and took him into custody.

Kocurek also attracted attention by his highly nervous condition.

Littleton declared that Kocurek made the alleged threat against his wife about a year ago. The person who dismembered the body showed a certain degree of skill such as a butcher might possess, police said. Police said Kocurek's duties as cook in the army called for considerable work in cutting meats.

BELIEVES MOUNTAIN IS A GOLD MINE

LONE PROSPECTOR CONTINUES TUNNELING INTO STARK MOUNTAIN

St. Paul, April 29.—Cut in Glacier National park a lone man is tunneling into the heart of a huge mountain, near where thousands of tourists pass each summer with no idea of what is going on.

George Stark of Kallispell, Mont., is driving the only gold mine in the national parks system. He has been at it for more than fifteen years, and does just enough digging each year to keep his claim alive. Stark had the idea that the mountain named after him—Stark Mountain—contained gold. He started digging for it long before the congress created Glacier Park in 1910, and the government since has been powerless to interfere, because his claim antedates the act of congress.

Stark's tunnel enters the mountain about half a mile up from its base. He is laying a narrow gauge railroad as he picks his way in, and pushes loaded cars out to the dump by hand. Stark continues to look upon his mountain as one of gold, while tourists gazing across Lake McDermott at the towering, rugged peak, look upon its only as a palace of beauty.

NEGOTIATIONS FOR SECURITY PACT TO BE CONTINUED

(By United Press)
Paris, April 29.—France's dissatisfaction at the election of Field Marshal Hindenburg to the German presidency is not to interfere with negotiations regarding a security pact, it was indicated semi-officially today. The foreign office said that an exchange of views with the Luther government regarding a security agreement will be continued despite Hindenburg's election.

INDIAN LEGEND OF GOLD IN THE MOUNTAIN REVIVED

DISCOVERIES MADE IN TURTLE MOUNTAINS NEAR BELCOURT, N. D.

GRAVEL ASSAYED WHICH, IT IS ASSERTED, WENT \$3.08 PER TON

(By United Press)
Rolla, N. D., April 29.—An old Indian tradition concerning gold in the Turtle Mountains is believed to have been proven by discoveries near Belcourt.

Persistent reports of a gold find surrounded by much secrecy have started a noticeable boom in that section.

The story here is that a Belcourt merchant named Haug had some gravel assayed which contained gold amounting to \$3.08 per ton.

Years ago, according to the tradition, an Indian found gold nuggets and while taking two trusted friends to the spot he died. His last effort was to draw a crude map for his friends and told them they were just a day's walk from the gold. Ever since then men have searched for gold intermittently in the Turtle Mountains.

DEVELOPMENTS IN GARY, IND., MURDER CASE

RAYMOND SWEENEY REARRESTED, PREVIOUSLY HAD BEEN RELEASED

INVESTIGATION ON TO SEE IF CHARRED BODY IS THAT OF MRS. SWEENEY

(By United Press)
Gary, Ind., April 29.—Raymond Sweeney, 35, was arrested today in connection with the murder of an unidentified girl near Chesterton on Sunday. Sweeney was held for a few hours yesterday, but was released later.

Police took him into custody again today for further investigation. He is held on an open charge.

Investigation was to determine whether the broken and charred remains of the victim was that of Mrs. Lucille Sweeney, his wife. Yesterday the remains were identified as those of Mrs. Sweeney. Despite the stand of several family friends that the remains are not those of Mrs. Sweeney, Captain of Police Linn decided to rearrest and hold Sweeney until he is positive whether Mrs. Sweeney is alive.

FOUR LOSE LIVES IN APARTMENT FIRE

(By United Press)
Portland, Ore., April 29.—Four persons lost their lives and several were injured in an apartment house fire here today. The dead are Mrs. Clara Short, 20, W. E. Lawr, 70, Miss Bernice Frazier, 20, and E. Sullivan, 55.

ALSO CONTINUED FULFILLMENT OF THE DAWES PLAN

WORLDWIDE PEACE PRONOUNCEMENT IS ALSO DECLARED BY HIM

VIEWS OF NEW PRESIDENT MADE KNOWN BY CHANCELLOR LUTHER

(By United Press)
Berlin, April 29.—President-elect Hindenburg favors a safety pact among European nations, continued fulfillment of the Dawes' plan and worldwide peace.

His views were made known today by Chancellor Luther with whom the field marshal conferred Tuesday.

Luther, addressing a big industrial convention, was recognized to be acting as Hindenburg's mouthpiece and to be expressing the policies of the president-elect.

The chancellor expressed a hope for peaceful understanding throughout Europe. Germany, he declared, is entitled to protection against attacks. She will not and cannot conduct a war.

Hope that a safety pact with France and others of the allies would be consummated speedily, and that the Ruhr and Cologne areas would be evacuated soon was expressed by the chancellor.

RUMORS OF ATTEMPTS TO KILL FIELD MARSHAL

Berlin, April 29.—Police guards were increased today around President-elect Hindenburg's villa at Hanover, giving rise to rumors of an attempt to assassinate the field marshal. Emphatic denials or knowledge of any plot was made at police headquarters where it was said the additional guards were to assist in keeping off enthusiastic demonstrators.

1 KILLED, 10 HURT IN TRAIN WRECK

SANTE FE PASSENGER TRAIN INTO DITCH NEAR SAN DIEGO, CALIF.

San Diego, Calif., April 29.—One man was killed and ten persons badly injured when a Sante Fe passenger train went into a ditch at Serrento, 16 miles north of here, during the night, according to word reaching San Diego today. Engineer Warborts of Los Angeles was crushed to death under his engine. Ten passengers and members of the crew were injured and rushed to a hospital. All are expected to recover.

COMMERCIAL CONTESTS TO CENTER AT U. FARM

The finals in the third annual Minnesota State High School Commercial contest will be held at University Farm, St. Paul, on Saturday, May 2, under the auspices of the business section of the Minnesota Education association. The College of Business of the University will be host.

From 60 to 70 young men and women who have survived the district contests will take part in the finals for beginners and advanced students in typewriting and shorthand. There are 32 of these districts and contestants winning first, second, and third in each district are eligible to enter the state contest at University Farm. Every contestant must bring his own typewriting machine.

Miss Georgia M. Scott of the Technical High School, St. Cloud, is chairman of the state contest committee. The winning school in each event will be presented with an engraved loving cup to be retained by the school winning it two years in succession. Winners of the first classes in the different events will be presented certificates of award.

MAGNUS JOHNSON GIVES TESTIMONY IN CASE

BRINGS CRIMINAL ACTION AGAINST

A. N. JACOBS

LATTER WAS FORMER CAMPAIGN MANAGER FOR U. S. SENATOR SCHALL

FORMER SENATOR TESTIFIES HE WAS IN EAGLE BEND AND LITTLE FALLS

(By United Press)
Minneapolis, April 29.—It was another Magnus Johnson who was arrested for being drunk and disorderly in Minneapolis a year ago, former U. S. Senator Magnus Johnson contended in district court today. He brought criminal libel proceedings against A. N. Jacobs, former campaign manager for U. S. Senator Thomas D. Schall.

Jacobs, editor of "Scandal — the Naked Truth," a paper which appeared once during the senatorial campaign last fall, published an article pretending to show that the then senator had been fined \$10 for drunkenness in Minneapolis May 5, 1923.

The former senator showed today that he visited some of his wife's relatives in Eagle Bend, Minn., May 7th, last year and spent the night with them. He drove to Little Falls the next day, he said, and had dinner there with Adjutant-General W. F. Rhinow. He presented in evidence a cancelled check cashed in Little Falls May 8th by A. F. Landan, a druggist there.

Adjutant-General Rhinow appeared on the witness stand and corroborated Johnson's testimony. The Magnus Johnson who actually was arrested in Minneapolis on the date in question lived on a farm near Faribault and was in court today. He did not testify, however.

BUCK O'CONNOR

IS CONVICTED ON

MURDER CHARGE

IMMEDIATELY SENTENCED TO LIFE IMPRISONMENT BY JUDGE PARSONS

O'CONNOR LITTLE AFFECTED. CONTINUES HIS CAREFREE ATTITUDE

(By United Press)
Wadena, Minn., April 29.—Buck O'Connor, now serving an indeterminate sentence in Stillwater prison for forgery, was convicted last night on a first degree murder charge for the killing of John Goings, Carrington, N. D., farmer. O'Connor was immediately sentenced to life imprisonment by Judge William L. Parsons of Fergus Falls.

Continuing his carefree attitude maintained throughout the trial, O'Connor smiled when the verdict was read after five hours' deliberation. A smile was his only answer when Judge Parsons' sentence was pronounced.

The state sought to show that Goings was slain by O'Connor while the two men, accompanied by Eddie Helm, who is still at large, were traveling in Goings' automobile from Carrington to Minneapolis. O'Connor is serving a penitentiary term for forging Goings' name to travelers' checks and the state contended robbery was the motive for the murder.

O'Connor occupied the stand for five hours. Featuring his testimony was the introduction of a fourth man whom he said rode in the car on the Minneapolis trip. The man had not been mentioned in prior police statements obtained from O'Connor.

Goings' body was found in a cornfield near here last January. The skull was crushed and riddled with bullets. The arms were tightly bound behind the back and the corpse frozen.

Some people think home is merely a place to stay away from.

CLAIM GOLF LINK MURDER MYSTERY SOLVED

FRANK KOCUREK, A FORMER ARMY COOK, ARRESTED IN CHICAGO

POLICE SUSPICIOUS WHEN HE IDENTIFIES HEADLESS, ARMLESS REMAINS

(By United Press)
Chicago, April 29.—Solution of the Budlong golf links' murder mystery appeared near today with the arrest of Frank Kocurek, 30, former army cook and now manager of a chain of restaurants. Kocurek's 23-year-old wife disappeared last May and according to a police informant, the prisoner threatened her life.

Police announced the finding of a 12-inch knife in Kocurek's home. Stains on it are to be subjected to chemical analysis in the belief that they were caused by blood. A stained mat also was found in the house. William E. Littleton, rooming house proprietor, quoted Kocurek as follows:

"I intend to kill her and when I do, I am going to use my army experience as a butcher and kill her in such a way that should what's left be found, no one will ever be able to tell who she was."

When confronted with Littleton, Kocurek denied having made the statement. Then he became hysterical and cried out that he might have made the threat, but did not recall doing so.

Mrs. Kocurek left him about a year ago, the man said. He said he has heard from her from time to time. Police have secured a letter written to Kocurek by his mother-in-law of Ecorse, Mich., in which she accused him of beating his wife and stating in part:

"It must be you who has done away with her."

Kocurek was taken into custody when he identified the dismembered torso as that of his wife. Police became suspicious at his ability to identify the headless, armless and legless remains and took him into custody.

Kocurek also attracted attention by his highly nervous condition. Littleton declared that Kocurek made the alleged threat against his wife about a year ago. The person who dismembered the body showed a certain degree of skill such as a butcher might possess, police said. Police said Kocurek's duties as cook in the army called for considerable work in cutting meats.

BELIEVES MOUNTAIN IS A GOLD MINE

LONE PROSPECTOR CONTINUES TUNNELING INTO STARK MOUNTAIN

St. Paul, April 29.—Out in Glacier National park a lone man is tunneling into the heart of a huge mountain, near where thousands of tourists pass each summer with no idea of what is going on. George Stark of Kalispell, Mont., is driving the only gold mine in the national parks system. He has been at it for more than fifteen years, and does just enough digging each year to keep his claim alive. Stark had the idea that the mountain named after him—Stark Mountain—contained gold. He started digging for it long before the congress created Glacier Park in 1910, and the government since has been powerless to interfere, because his claim antedates the act of congress.

Stark's tunnel enters the mountain about half a mile up from its base. He is laying a narrow gauge railroad as he picks his way in, and pushes loaded cars out to the dump by hand. Stark continues to look upon his mountain as one of gold, while tourists gazing across Lake McDermott at the towering, rugged peak, look upon its only as a palace of beauty.

NEGOTIATIONS FOR SECURITY PACT TO BE CONTINUED

(By United Press)
Paris, April 29.—France's dissatisfaction at the election of Field Marshal Hindenburg to the German presidency is not to interfere with negotiations regarding a security pact, it was indicated semi-officially today. The foreign office said that an exchange of views with the Luther government regarding a security agreement will be continued despite Hindenburg's election.

INDIAN LEGEND OF GOLD IN THE MOUNTAIN REVIVED

DISCOVERIES MADE IN TURTLE MOUNTAINS NEAR BELCOURT, N. D.

GRAVEL ASSAYED WHICH, IT IS ASSERTED, WENT \$3.08 PER TON

(By United Press)
Rolla, N. D., April 29.—An old Indian tradition concerning gold in the Turtle Mountains is believed to have been proven by discoveries near Belcourt.

Persistent reports of a gold find surrounded by much secrecy have started a noticeable boom in that section.

The story here is that a Belcourt merchant named Haug had some gravel assayed which contained gold amounting to \$3.08 per ton.

Years ago, according to the tradition, an Indian found gold nuggets and while taking two trusted friends to the spot he died. His last effort was to draw a crude map for his friends and told them they were just a day's walk from the gold. Ever since then men have searched for gold intermittently in the Turtle Mountains.

DEVELOPMENTS IN GARY, IND., MURDER CASE

RAYMOND SWEENEY REARRESTED, PREVIOUSLY HAD BEEN RELEASED

INVESTIGATION ON TO SEE IF CHARRED BODY IS THAT OF MRS. SWEENEY

(By United Press)
Gary, Ind., April 29.—Raymond Sweeney, 35, was arrested today in connection with the murder of an unidentified girl near Chesterton on Sunday. Sweeney was held for a few hours yesterday, but was released later.

Police took him into custody again today for further investigation. He is held on an open charge. Investigation was to determine whether the broken and charred remains of the victim was that of Mrs. Lucille Sweeney, his wife. Yesterday the remains were identified as those of Mrs. Sweeney. Despite the stand of several family friends that the remains are not those of Mrs. Sweeney, Captain of Police Linn decided to rearrest and hold Sweeney until he is positive whether Mrs. Sweeney is alive.

FOUR LOSE LIVES IN APARTMENT FIRE

(By United Press)
Portland, Ore., April 29.—Four persons lost their lives and several were injured in an apartment house fire here today. The dead are Mrs. Clara Short, 20, W. E. Lawr, 70, Miss Bernice Frazier, 20, and E. Sullivan, 55.

ALSO CONTINUED FULFILLMENT OF THE DAWES PLAN

WORLDWIDE PEACE PRONOUNCEMENT IS ALSO DECLARED BY HIM

VIEWS OF NEW PRESIDENT MADE KNOWN BY CHANCELLOR LUTHER

(By United Press)
Berlin, April 29.—President-elect Hindenburg favors a safety pact among European nations, continued fulfillment of the Dawes' plan and worldwide peace.

His views were made known today by Chancellor Luther with whom the field marshal conferred Tuesday.

Luther, addressing a big industrial convention, was recognized to be acting as Hindenburg's mouthpiece and to be expressing the policies of the president-elect.

The chancellor expressed a hope for peaceful understanding throughout Europe. Germany, he declared, is entitled to protection against attacks. She will not and cannot conduct a war.

Hope that a safety pact with France and others of the allies would be consummated speedily, and that the Ruhr and Cologne areas would be evacuated soon was expressed by the chancellor.

RUMORS OF ATTEMPTS TO KILL FIELD MARSHAL

Berlin, April 29.—Police guards were increased today around President-elect Hindenburg's villa at Hanover, giving rise to rumors of an attempt to assassinate the field marshal. Emphatic denials or knowledge of any plot was made at police headquarters where it was said the additional guards were to assist in keeping off enthusiastic demonstrators.

1 KILLED, 10 HURT IN TRAIN WRECK

SANTE FE PASSENGER TRAIN INTO DITCH NEAR SAN DIEGO, CALIF.

San Diego, Calif., April 29.—One man was killed and ten persons badly injured when a Sante Fe passenger train went into a ditch at Serrento, 16 miles north of here, during the night, according to word reaching San Diego today. Engineer Warborts of Los Angeles was crushed to death under his engine. Ten passengers and members of the crew were injured and rushed to a hospital. All are expected to recover.

COMMERCIAL CONTESTS TO CENTER AT U. FARM

The finals in the third annual Minnesota State High School Commercial contest will be held at University Farm, St. Paul, on Saturday, May 2, under the auspices of the business section of the Minnesota Education association. The College of Business of the University will be host.

From 60 to 70 young men and women who have survived the district contests will take part in the finals for beginners and advanced students in typewriting and shorthand. There are 32 of these districts and contestants winning first, second, and third in each district are eligible to enter the state contest at University Farm. Every contestant must bring his own typewriting machine.

Miss Georgia M. Scott of the Technical High School, St. Cloud, is chairman of the state contest committee. The winning school in each event will be presented with an engraved loving cup to be retained by the school winning it two years in succession. Winners of the first classes in the different events will be presented certificates of award.

PRINCETON ASSOCIATION MEMBERS INSPECT SOUTH ST. PAUL LIVESTOCK TERMINAL

There is nothing better than first hand information to bring understanding and satisfaction in the relations between individuals and their organizations in any line of endeavor a truth which the members of the Princeton Livestock Shippers association appear to understand.

Forty members of this association set an example for others in the state when they chartered a bus on April 22 and spent a full day inspecting the inner workings of their selling agency, the stockyards and packing houses at South St. Paul where they were the guests of the Central Co-operative Commission association.

They were taken into the yards where they saw their calves, cattle and hogs sorted and weighed, saw the methods of selling and the range of prices paid and all other features entering into the handling of stock in the yards by the Central association. They were Central's guests at lunch after which they were taken through the packing houses and then at Central's office were given talks on the workings of that organization. These men came wearing badges "Central Booster from Princeton" and they went home wearing these badges with more pride and enthusiasm than when they came.

Other associations in the state could profit by following the idea of the Princeton farmers.

RAILWAY INCOME
SHOWS DECREASE

MOST NORTHWEST ROADS RECEIVED LESS THIS YEAR THAN LAST

St. Paul, April 29.—A general decline in operating income of north-west railroads for the first quarter is seen in the monthly earnings statements released today.

The Great Northern, Soo Line, Great Western and Omaha showed increases in net income for the period as compared with 1924, although gross revenues were lower than last year.

The net of the Great Northern for the three months was \$2,416,944, a 14 per cent gain over last year. The gross revenues amounted to \$21,085,902, which was \$47,683 under 1924.

For March the net income was \$859,610, a decline of \$65,899, compared with March, 1924.

The three-months' net of the Soo line for the quarter was \$956,170, compared with \$412,712 last year. The March net was \$363,771, compared with \$196,629 for last year.

The Great Western report showed a net for the period of \$1,017,266, which was \$56,521 over last year. The March net of \$304,919 was just about half that of 1924.

The Northern Pacific had a loss in net income for the first three months of \$2,599,640, a decrease of \$687,107. The net for March amounted to \$979,283, a decrease of \$331,273.

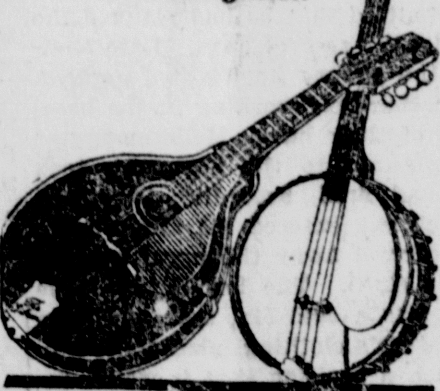

The Omaha net for the quarter was \$853,612, \$23,998 increase over 1924. The March net amounted to \$294,191.

A Painted Floor Makes Housework Easier

THE floors of kitchens, pantries, steps and other surfaces that receive rough wear are usually painted. A painted floor makes housework easier, looks better than bare wood and lasts much longer.

BLOOD'S DURABLE FLOOR PAINT makes old floors look like new and prevents new floors from looking old.

It dries over night and holds its color after long hard wear and many washings, leaves a smooth, glossy surface that is impervious to moisture and as hard as granite.

World Religions To Gather in Jerusalem

Jerusalem, April 27. — Palestine as a center for pilgrimage has received a new impetus this year. Representatives of every Christian sect in the world have met here during the past two months, with Easter marking the high-water mark of a record-breaking tourist season.

Representatives of American, English, French Spanish churches, together with Armenians, Copts, Arabs, Russians, Greeks, Syrians and Abyssinians, participated in a series of religious conferences held under the auspices of the Near East Relief in its orphanage here. The delegates, before adjourning, passed a resolution formulated by Dr. John Timothy Stone of Chicago, former Moderator of the Presbyterian church, as follows:

"The American people, through their great orphanage work in Bible Lands, are helping to heal the scars of war, bringing these nationless orphans to independent self-support. Christian people throughout the world are grateful for this American leadership, which we trust will be continued until these thousands of rescued children are brought to useful citizenship."

COMMITTEES ARE NAMED

Executive Committee Includes H. F. Michael, W. C. White, Mrs. F. W. Uhler

The Crow Wing County Garden Flower society are preparing for the second annual Peony show which will be held in Brainerd late in June or early in the month of July.

L. P. Hall, assisted by H. F. Michael, president and secretary of Garden Flower society, recently named the following committees, who are to conduct and to have general charge of the show.

Executive committee—H. F. Michael, Brainerd; W. C. White, Deerwood; Mrs. F. W. Uhler, Crosby.

Publicity—Mrs. L. P. Hall, Bay Lake; Mrs. J. L. Frederick, Brainerd; Mrs. E. W. Hallett, Crosby.

Exhibition—Mrs. Mabel C. Carmichael, Brainerd; Mrs. James T. Hale, Deerwood; Mrs. A. D. Darling, Crosby.

Prizes—Mrs. G. W. Hunt, Bay Lake; Dr. George Ribbel, Brainerd; Mrs. A. C. Weber, Brainerd.

Registrar of exhibits—C. W. Mahlum.

The rules committee and other special committees are to be named later.

At this time, it may be well to state how the society had its origin, how it became a going concern, what the society hopes to accomplish in the future.

In the month of June, 1924, a few enthusiastic flower lovers decided to undertake the holding of a small Peony show in Brainerd. This was, of course, a rash undertaking, inasmuch as the promoters had no experience in promoting or staging such an enterprise. However the show was held and the results were gratifying, due largely to the assistance and advice received from outside flower lovers who deeply sympathized with the predicament these enthusiasts had gotten themselves into. During this Peony show, representatives of the State Garden Flower society, who were present advised the forming of a County Garden Flower society. A meeting was called and the organization effected. A goodly number became members of our present organization which is affiliated with the State Garden Flower society.

Later in the season a fall flower show was held, featuring Dahlias and such other flowers as were in season. This show was better and more interesting inasmuch as it was broader in its scope, making it possible for more people to have a part in the show.

The society is indebted to the organizations and civic bodies which have given the society active and helpful support in many ways. The drive to sell peony roots which was sponsored by the Brainerd Rotary club was most successful. More than two thousand roots were sold and much is hoped for in the future as a result of this drive. Then the spring drive for the sale of gladiolus bulbs whereby nearly twenty-five thousand were sold indicates that the enthusiasm for more and better flowers is becoming general. The individuals who were personally responsible through their untiring efforts for the success of these drives are to be commended most highly.

The present aim and purpose of this garden flower society is to grow more and better flowers in every town and rural district in Crow Wing county. Thus far the greatest increase in interest has been manifested in the towns of Brainerd and Crosby but there are indications of an aroused interest in other sections of the county. A surprise is promised which will emphasize what the rural members may accomplish. This surprise pertains specially to the rural members and the story of it is to appear shortly.

The two shows which the society expect to hold this year are to be held in the Farmers' room at the County Court House. The County Commissioners have very kindly given their permission for the use of this room and the use of any additional space which may be needed in the lobby. The court house is a most admirable place for holding these shows. It is doubtful if a place built specially for the shows could have the advantages that the court house has and the members of the society are very grateful to the commissioners for this opportunity to have such excellent exhibit space.

Last year it was hard work, assistance and co-operation that helped make the show good ones. This year the work will be harder and more of it. The officers of the society are a unit in their intention to make the 1925 shows of the County Garden Flower society something to be remembered with pleasure.

RIGID TESTS AT THE EXAMINATION

All But One of the Graduating Class; Citizenship Studies, Pass the Quiz

CONDUCTED BY R. K. DOE

23 Successful Applicants to be Awarded Diplomas at Tonight's Graduating Exercises

All but one member of the graduating class in the night school for aliens desiring to become citizens of the United States, passed in the examination conducted Tuesday evening by R. K. Doe, naturalization officer. The tests were quite rigid and were given to the individual members orally, lasting until after 10:30 o'clock.

There were 24 applicants who took the examination, and 23 of this number passed and will be awarded their diplomas in the graduating exercises to be held in the assembly room at the high school at 8 o'clock this evening.

The graduates are Mr. and Mrs. F. G. Drieling, Charles Oravala, Stanley Piszczar, M. Kerley, Matt Val-kama, Eino Hill, Peter M. Hanson, Carl M. Hanson, Emil A. Johnson, Kaarlo Kivisto, Walter Jacobson, Arvin Severson, Arne Dybvick, Mrs. Arne Dybvick, Casper Olson, Mrs. Casper Olson, Mrs. Paul Dybvick, Mrs. Mike Skumave, Mrs. Jack Selen, Joseph Swindells, W. H. Cartwright and Karl Huhtala.

The graduating exercises this evening will be very interesting, and

"SHOT THAT WAS HEARD AROUND THE WORLD" FIRED AGAIN ON 150th ANNIVERSARY OF BATTLE OF CONCORD

This photograph was taken when the fight between British regulars and minute men at the old North Bridge at Concord, Mass., was reproduced by Massachusetts

national guardsmen. The "British" are in the foreground and the "minute men" in front of French's Minute Man statue marking the spot where the first man fell in the American Revolution. Thousands went to the historic town to witness the mimic battle despite unseasonable snow and a cold north-east wind.

the public is invited and urged to attend. Following is the program which has been changed somewhat from the original that was planned:

Program

"America"—Americanization class Remarks—Mille Vanasek and Clara Hjerpe.

"Value of Night School"—F. G. Drieling.

Remarks—Harry Fullerton, representing the Lions' club and American Legion.

Violin solo—Geraldine Kiebler. Preamble to the Constitution—Americanization class.

Remarks by Mrs. E. J. Quinn—Representing Brainerd Musical club. Gettysburg address—Jos. Swindells.

Remarks by Mrs. M. A. Bronson—Representing the D. A. R.

Selection—Y. M. C. A. quartet.

Remarks—By representative of the Board of Education.

Remarks by H. F. Michael—Representing the Rotarians.

Selection—Y. M. C. A. quartet. Presentations of Diplomas and Certificate of Attendance, presented by R. K. Doe, U. S. Naturalization Examiner.

Song, "Star Spangled Banner"—Americanization class.

Salute to the flag—Americanization class.

The graduating exercises hold a double importance to those who are to receive their diplomas, for in addition to the fact that the certificates show that their holders have completed the night school work, it

exempts them from taking the examinations in district court on next Tuesday, for the diplomas are accepted in lieu of such an examination.

Mr. Doe is in the city today, going over the matter of naturalization with those who have not attended evening school, but who will try for their final papers on Tuesday at the opening of the district court.

MORE ROOM---BALLOON TIRES IN NEW HUPMOBILE CLUB SEDAN

In this Club Sedan, rear-seat and front-seat passengers enjoy real comfort and relaxation.

You get into the rear seat, or you leave it, through the rear door, without squeezing, crowding or tilting a seat. Doors, both front and rear, are regular sedan width. On this car you can have, at nominal extra cost, balloon tires and disc or natural wood wheels—while many standard improvements have been made.

Perhaps the most important is Duco

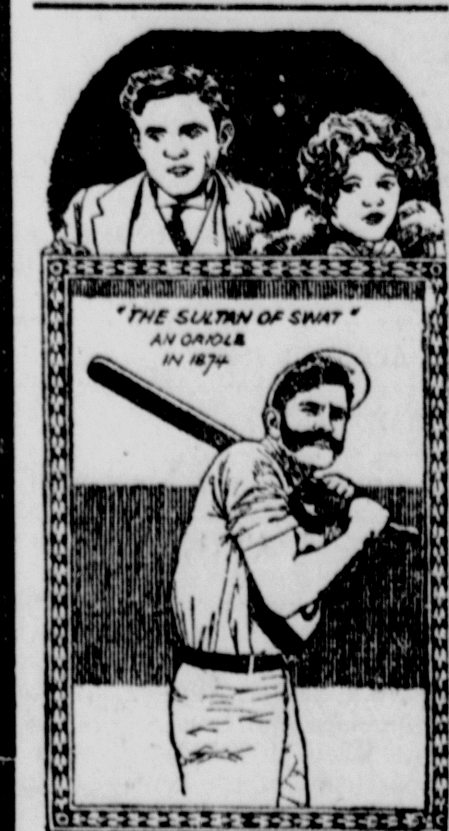

finish. You can have your choice of blue or beige, in the comfortable assurance that either color will actually become more lustrous and more beautiful with the passing months, and will last for years.

It may be that you have always desired a car of Hupmobile's reliability, brilliant performance and long-life. The Club Sedan now offers you these Hupmobile attributes, with closed car comfort and remarkably low first cost.

A FINANCIAL GIANT

BACK of the Brainerd Gas company is the Northern States Power company, the parent organization, and a perusal of the front page article in the Dispatch, published yesterday, shows it to have a capitalization of millions.

In the gas line the Northern States Power company now furnishes 14 cities, including Fargo, Red Wing, Chippewa Falls, Faribault, Mankato, Moorhead, Stillwater, St. Cloud, Brainerd, etc.

The electrical system covers six states, Illinois, Wisconsin, North Dakota, South Dakota, Minnesota and Iowa. When a company of such magnitude interests itself in Brainerd, goes after business and gives Brainerd all facilities of the central organization, plus a remarkable reduction in rates, it behooves Brainerd citizens to reciprocate and do what they can to encourage a home industry.

In all other cities served by this large corporation, gas is constantly increasing in favor and millions of feet are being sold. For instance, in Red Wing, with a population of 8,600, the company sells 39,000,000 feet annually. In Mankato, with a population of 14,000, the company sells annually 68,000,000 feet. In Fargo and Moorhead the annual sales are 150,000,000 feet and the combined population of the towns is 31,000.

Brainerd, with an estimated population of 10,000, offers a field for extension of gas consumption and with the new rates in effect should bring about an annual consumption of more than 30,000,000 feet.

People who have used gas are looking up their old bills and comparing old rates with the wonderful reductions made and the company is pleased to note that many of these old customers are coming back. In some cases, even, they have kept their old equipment, and are again putting it to good use.

The industrial rate offered is a most attractive one and Charles F. Stuart, of Minneapolis, Assistant to the General Manager, has promised his support to give wide publicity to this industrial rate and to do all he can to interest suitable industries in locating in Brainerd. Any industry that uses heat, will find gas a most convenient form and the industrial rates offered in Brainerd are attractive.

NEED OF REFORESTATION

REFORESTATION is something the Brainerd Lake Region is vitally interested in. It is the only salvation of our lakes and its wild life.

In a recent address, Grover M. Conzel, state forester, gave his views on forestry matters and mentioned that Minnesota and the nation's forestry policy in past years has been a "ruthless" thing. "In 1850 or thereabouts, the national government gave out the information that Minnesota's timber stand was sufficient to last the country indefinitely, and our forestry policies seem to have been based on such information."

Many Brainerd people well remember the day when Brainerd was really a "City of Pines," when the horizon was a timber line which seemed thick enough to withstand the onslaught of the woodsman's ax for a half century. Now, one sees but few pines of the old days and where they exist, they loom as landmarks.

Many of the younger generation doubted Minnesota's forests until they saw the timber in Itasca State park or viewed the cut logs in Captain William H. Fawcett's wonderful hotel on Big Pelican lake.

With the preservation of our timber resources, the growth of the reforestation idea, comes the realization that with our forests is linked preservation of game, etc., and one finds assisting in this conservation program such national organizations and state associations like the Izaak Walton League of America, the Minnesota Game Protective Association, the Capitol City Sportsmen's Association, the state game and fish department, the state forestry department, the United States forestry service, the Minnesota Forestry League, Minnesota Federation of Women's clubs, the American Legion and the American Legion auxiliary.

TELEPHONE SHOPPING

THE National Headquarters "Phone for Food" Campaign sales promotion committee of Chicago has sent out some literature urging shopping by telephone.

If your wife a foot or phone shopper?
Only 50 per cent of American housewives still hoof it for their groceries, according to a two-year survey just concluded by a special research committee of the National Wholesale Grocers' Association.

"We hope to increase the number who 'phone for food' to 90 per cent," says John J. Miller, chairman of the investigation committee, "through a national campaign now being conducted."

Brainerd people are well aware that much shopping for groceries and meats is done over the telephone. During the world war, when the government was importuning everybody to save and to pay cash for groceries, it was quickly noted that the telephone was a great adjunct in sales, that more people telephoned for their groceries than resorted to buying in person. It is obvious, of course, that buying on account is stimulated by the telephone.

DOING CIVIC WORK

DOING civic work is oftentimes a thankless job. The reason luncheon clubmen find companionship in numbers, is because the club acts as a civic center and fountainhead from which one may gather further inspiration and also receive at times an expression of goodwill for meritorious work.

But as to finding financial rewards in civic work, as expressed by President Eddy Flynn of the Rotarians, get such an idea out of your mind. Rotary and every other civic club imbued with similar ideas calls for work of its members, the effacement of self glorification, the sinking of identity into the labors of established institutions. If there is any reward in such work, it is in the inner self-consciousness of the member. It is not gained in publicity in the prints.

AMERICA relies on its young men to achieve distinction and Europe "banks" on its old men.

Individual Races Seldom Wiped Out by Enemies

The latest census of the Indians in the United States shows they are doing far better than holding their own. There is sound reason for believing there are more than twice as many of the aborigines living than were in existence when the whites began to descend upon the continent.

A government publication put out by the Union of South Africa makes the statement that the white population there is not maintaining its ratio with the increase of the negroes. Failing additions from abroad, says this paper, the prospect of keeping a white civilization in South Africa must fade. The whites may even be forced to abandon the country altogether.

History makes it clear that conquered peoples are seldom really conquered. If they have been in a region a long time they have become far more fitted to the environment than the newcomers. They reproduce faster, as a rule, and suffer less from local diseases. They stick close to their original homes, whereas invaders are often restless and given to moving on. The Saxon type in Britain is said to be a disappearing type before the dark-haired stock that first peopled the islands. The northern barbarians who conquered Italy and Spain have been submerged by the Latin races. Rumanians think of themselves as Latin because that country was a Roman outpost, but the Rumanian stock is a Slav stock now.

The Indians, few as they are in comparison with other races, may possibly outlive several of the elements of our present population. Their big chance would come when some violent disturbance forced a struggle for survival with nature in the raw and rough.

Greatest Grain Ports

Duluth, in Minnesota, and Superior, in Wisconsin, which lie 1,500 miles inland, are practically ocean ports for the shipment of wheat in unbroken bulk to Liverpool, 5,000 miles distant, by reason of the Welland and Erie canals. Both cities are in connection with New York by water for the unbroken shipment of barges containing the equivalent of 75 freight cars.

Situated at the very gateway to the rich wheat country of the Northwest, Duluth and Superior have seen the shipment of grain increase by leaps and bounds. The first shipment from Superior was one of 40,000 bushels in 1870. Since that shipment 16 elevators, having a storage capacity of more than 18,000,000 bushels, have been built on the water front of this one city. The Great Northern elevator system alone possesses a storage capacity of almost 8,000,000 bushels. A single plant of this system handles 6,000,000 bushels, and can receive, clean and reship 400 cars in a working day of 10 hours. To completely fill all of Superior's elevators once the equivalent of 600 trainloads of wheat is required. When the first grain shipment was made from Superior a boat carrying 1,000 tons was a large vessel. Today boats plying to that port carry 14,000 tons.

Radio for Insomnia

Sir Bruce Bruce-Porter, chief surgeon of the Third London General hospital, is already known as an enthusiast on the use of radio for the treatment of patients' mental troubles.

He is quoted recently as saying that not only were patients in the hospital aided appreciably in getting to a state of normal health by the music brought in by radio sets, but also, together with Sir Henry Hadow, that many cases of insomnia and of highly nervous condition had been calmed and eased by the use of radio.

He maintains that radio in the hospitals would be one of the most practical advances that the medical science today could take, according to press reports.

Fabled Island in Atlantic

The fabled Island of the Seven Cities was popularly believed, in the Fourteenth and Fifteenth centuries, to exist in the Atlantic west of Europe and to be inhabited by Spanish refugees from the Moors.

TELEPHONE SHOPPING

THE National Headquarters "Phone for Food" Campaign sales promotion committee of Chicago has sent out some literature urging shopping by telephone.

If your wife a foot or phone shopper?

Only 50 per cent of American housewives still hoof it for their groceries, according to a two-year survey just concluded by a special research committee of the National Wholesale Grocers' Association.

"We hope to increase the number who 'phone for food' to 90 per cent," says John J. Miller, chairman of the investigation committee, "through a national campaign now being conducted."

Brainerd people are well aware that much shopping for groceries and meats is done over the telephone. During the world war, when the government was importuning everybody to save and to pay cash for groceries, it was quickly noted that the telephone was a great adjunct in sales, that more people telephoned for their groceries than resorting to buying in person. It is obvious, of course, that buying on account is stimulated by the telephone.

DOING CIVIC WORK

DOING civic work is oftentimes a thankless job. The reason luncheon clubmen find companionship in numbers, is because the club acts as a civic center and fountainhead from which one may gather further inspiration and also receive at times an expression of goodwill for meritorious work.

But as to finding financial rewards in civic work, as expressed by President Eddy Flynn of the Rotarians, get such an idea out of your mind. Rotary and every other civic club imbued with similar ideas calls for work of its members, the effacement of self glorification, the sinking of identity into the labors of established institutions. If there is any reward in such work, it is in the inner self-consciousness of the member. It is not gained in publicity in the prints.

AMERICA relies on its young men to achieve distinction and Europe "banks" on its old men.

Individual Races Seldom Wiped Out by Enemies

The latest census of the Indians in the United States shows they are doing far better than holding their own. There is sound reason for believing there are more than twice as many of the aborigines living than were in existence when the whites began to descend upon the continent.

A government publication put out by the Union of South Africa makes the statement that the white population there is not maintaining its ratio with the increase of the negroes. Failing additions from abroad, says this paper, the prospect of keeping a white civilization in South Africa must fade. The whites may even be forced to abandon the country altogether.

History makes it clear that conquered peoples are seldom really conquered. If they have been in a region a long time they have become far more fitted to the environment than the newcomers. They reproduce fast; or, as a rule, and suffer less from local diseases. They stick close to their original homes, whereas invaders are often restless and given to moving on. The Saxon type in Britain is said to be a disappearing type before the dark-haired stock that first peopled the islands. The northern barbarians who conquered Italy and Spain have been submerged by the Latin races. Rumanians think of themselves as Latin because that country was a Roman outpost, but the Rumanian stock is a Slav stock now.

The Indians, few as they are in comparison with other races, may possibly outlive several of the elements of our present population. Their big chance would come when some violent disturbance forced a struggle for survival with nature in the raw and rough.

Greatest Grain Ports

Duluth, in Minnesota, and Superior, in Wisconsin, which lie 1,500 miles inland, are practically ocean ports for the shipment of wheat in unbroken bulk to Liverpool, 5,000 miles distant, by reason of the Welland and Erie canals. Both cities are in connection with New York by water for the unbroken shipment of barges containing the equivalent of 75 freight cars.

Situated at the very gateway to the rich wheat country of the North west, Duluth and Superior have seen the shipment of grain increase by leaps and bounds. The first shipment from Superior was one of 49,000 bushels in 1870. Since that shipment 16 elevators, having a storage capacity of more than 18,000,000 bushels, have been built on the water front of this one city. The Great Northern elevator system alone possesses a storage capacity of almost 8,000,000 bushels. A single plant of this system handles 6,000,000 bushels and can receive, clean and reship 400 cars in a working day of 10 hours. To completely fill all of Superior's elevators once the equivalent of 600 trainloads of wheat is required. When the first grain shipment was made from Superior for a boat carrying 1,000 tons was a large vessel. Today boats plying to that port carry 14,000 tons.

Radio for Insomnia

Sir Bruce Bruce-Porter, chief surgeon of the Third London General hospital, is already known as an enthusiast on the use of radio for the treatment of patients' mental troubles.

He is quoted recently as saying that not only were patients in the hospital aided appreciably in getting to a state of normal health by the music brought in by radio sets, but also, together with Sir Henry Radlow, that many cases of insomnia and of highly nervous condition had been calmed and eased by the use of radio.

He maintains that radio in the hospitals would be one of the most practical advances that the medical science today could take, according to press reports.

Fabled Island in Atlantic

The fabled Island of the Seven Cities was popularly believed, in the Fourteenth and Fifteenth centuries, to exist in the Atlantic west of Europe and to be inhabited by Spanish refugees from the Moors.

Miss Murial Vanderbilt, One of Richest Young Women in Country, and Fiance, F. C. Church, Jr.

Mr. and Mrs. William Kissam Vanderbilt have announced the engagement of their daughter, Miss Murial Vanderbilt, to Frederic Cameron Church, Jr., of Lowell, Mass. She is fifth in line from the famous Commodore Vanderbilt, founder of the Vanderbilt family in this country. Her mother is a daughter of the late Senator James G. Fair of California. Church is a member of a prominent Boston family. He starred as an athlete at Harvard. He was graduated in 1920.

FIND CACHE OF NITROGLYCERIN AT FT. SNELLING

NEW EFFORT MADE TO IDENTIFY TWO ROBBER SUSPECTS

LATER MAY HAVE HAD HAND IN COLD SPRINGS BANK LOOTING

(By United Press.)
St. Paul, April 29.—Discovery of a cache of nitroglycerin at Fort Snelling today lead to a new effort to identify two robber suspects captured at the Fort Sunday.

Stearns county authorities will arrive in Minneapolis late today to question the men in connection with the looting March 27th of the Cold Springs State Bank at Cold Springs, 20 miles west of St. Cloud.

Officials of the Minnesota Bankers Protective Association are trying to identify the two as men wanted for a series of bank robberies in southern and western parts of the state and in adjoining states. Military police found them in an automobile loaded with revolvers and sawed off shotguns, as well as bank robbers' tools.

Later Fort Snelling officers found

Skaugs Drug Co.
BRAINERD, MINN.

Gentlemen:
On Monday March 23, I sent you one dollar for which you was to send me one bottle of Skaugs Stomach Remedy, and I received the bottle yesterday, but it was all smashed and all the medicine had run out.

I saw the post master at Osakis about it today, and he said that I should write to you people, as he said it had not been properly wrapped, and the post master at Brainerd should not have accepted same.

Now I am a poor man and I do not like to pay for that bottle twice, but I need the medicine very bad so please send me another bottle.

It is the only medicine that has helped me. I have suffered with stomach trouble for a number of years.

You may use this letter that I am writing you, as your medicine sure have done wonders for me, I have also told others about it, and will continue to do so.

I remain,

Yours very truly,

HENRY SWENO.

MORGANS AND FEDERAL RESERVE SUPPLY FUNDS

\$300,000,000 CREDIT FOR ENGLISH RETURN TO GOLD STANDARD

LARGEST CREDIT EVER ARRANGED FOR BENEFIT OF FOREIGN NATION

(By United Press.)
New York, April 29.—The \$300,000,000 credit for Great Britain in the United States to facilitate England's return to the gold monetary standard has been furnished by the Federal Reserve Bank and J. P. Morgan & Company.

Formal announcements were made by these institutions today.

The Federal Reserve Bank supplied \$200,000,000 and Morgans \$100,000,000 of the credit. Neither made any comment. It is the largest credit ever arranged here for the benefit of a foreign nation.

CHURCHILL CHEERED AS BUDGET INTRODUCED

London, April 29.—Winston Churchill, greeted with cheers that were echoes of the enthusiasm with which his budget was received today, introduced in the House of Commons this afternoon a bill to facilitate return of Great Britain to the gold standard. The chancellor of the exchequer urged the house to act speedily upon the measure which was then read for the first time.

Doris belongs to the old school—the girls who wear delicate, frilly things and who knit and cook and

keep house. She is the kind of girl who is feminine to her finger tips; one whose voice is soft, whose hair curls in fascinating ringlets and whose eyes are big and trusting. She seems to have been born to be protected, and what better protection could any girl wish than Tom Mix, the king of all cowboys.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandmother's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out of date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.—Adv.

PATCHED SHOE SERVES TO MARK BURIED MAN

WIFE IDENTIFIES REMAINS AS
HUSBAND, ALFRED NELSON,
LITTLE FALLS

BEING HARD OF HEARING, NEL-
SON COULD OBTAIN NO WORK,
GROWING DESPONDENT

(By United Press)
St. Paul, April 29.—A patched shoe Tuesday night served to identify the already buried body of a man found last Saturday in the Mississippi river near the Ford plant.

Identification was made by his wife. The man was Alfred Nelson, 52, recently of Little Falls. His body was found near the Ford plant and lay for three days in Ramsey county morgue unidentified.

Tuesday afternoon the county buried the body in Elmhurst cemetery. The clothes were kept at the morgue.

Tuesday evening Mrs. Nelson, who works during the day at a laundry to earn money to support herself and her four children, called at the morgue with Mrs. William Yahnke, a friend. "My husband disappeared March 17," Mrs. Nelson said. "I wonder if I could see the body of the man found in the river."

She was told of the burial. Then the attendant brought out the pair of shoes taken from his body. On the sole of one near the toe was a peculiar patch.

"That was my husband," sobbed Mrs. Nelson. "Those were his shoes—I know by the patch." Other articles of clothing also were identified.

The police report of Nelson's disappearance made March 18 revealed that the family came to St. Paul last July from Little Falls and that because he was hard of hearing Nelson could find no work and became despondent.

Three of his children, Clifford, 15, Edna, 12, and Alfred, 9, attend school at Hazel Park. The fourth, Essie, 18, helps Mrs. Nelson support the family. It is likely the body will remain buried in Elmhurst cemetery.

Strictly a Ford schedule is used in making our charges for repair work. You can charge it at Lively's.

Disguising the Walk

Back yards, unfortunately, seldom are laid out with an eye to their ornamental possibilities and the planting problem often is made difficult by a walk of brick or cement exactly dividing the space in half, making it a puzzle to adapt it to any garden plan. But with a walk a fixture, it must be taken as it lies, and such a situation may be ameliorated into a scene of beauty by planting a border on each

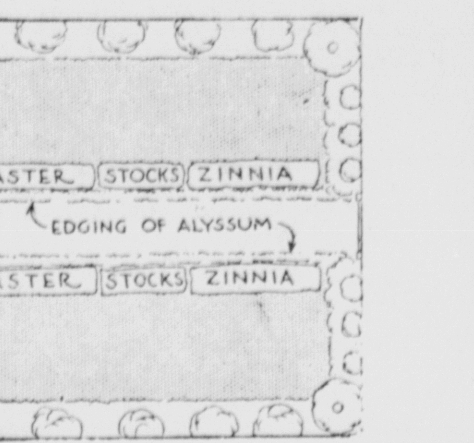

side of the walk, varying the plants in height, and planting annuals of trailing habit to droop and trail over the hard edges of the walk, blurring its uncompromising outlines.

With a border on each side of the walk and a boundary planting of shrubs, annuals and perennials, a grass panel is left on either side of the walk, which may be left free or may have a small ornamental tree or shrub placed either in the center or at each end, the trees or shrubs matching in each panel.

For the border along the walk a space at least four feet wide will give a good effect. It is usually better to

plant it to a variety of annuals of different height and style of growth than to bed it solidly to one variety. Along the edges of the walk, colonies of low-growing plants will be found most valuable to spread out over the edges of the cement or brick. Sweet alyssum, portulacca, verbenas, dwarf nasturtiums, dwarf marigolds, Swan river daisies, ageratum and others offer fine material for this purpose. In planting opposing borders or parallel

beds with edging plants the same plant colonies should be planted opposite each other or approximately opposite. The effect will be greatly improved by bearing this fact in mind.

Often edgings are planned for beds along the walk, one kind of plant on one side and another on the opposite. The plan seems alluring when contemplated, but it does not work out satisfactorily. The same plant or series of plants should be used to balance each other on both sides. The same principle holds true of the taller-growing plants. They need not be exactly opposite to secure the effect, but nearly enough so to maintain balance.

U. S. PROMISES BIG PROFITS TO FARMERS

(By United Press)
Washington, April 29.—Big profits are promised to farmers who will follow the latest method of the government's agricultural experts to "beat the market."

The experts have taken that vicious circle known as the "hog cycle" and carved and plotted it until they are now able to tell the big producer how he can escape from the succession of market peaks and depressions in which he is usually just one jump behind and losing money at every jump.

Farmers "miss the market," department of agricultural officials said today, because they raise hogs in times of underproduction and high prices and stop breeding when there are low prices and overproduction. On the face of it that sounds like a reasonable procedure, but when the farmer looks at his bank book at the end of the season, he discovers there is something radically wrong with it. Here is the department's explanation:

"This plan fails to allow for the time that must pass before the results of breeding decisions thus made will be felt in a larger or smaller movement of hogs to market. The number of hogs on the market at any given time is not adjusted to the

price conditions then existing, because the amount of the supply was determined months previously on the basis of the conditions prevailing at that time."

Obviously, if farmers could know what prices would rule several months later by the time they had finished breeding and raising their hogs, they could fit their supply to the demand and be ready to take advantage of peak prices.

Here is where the experts come to the rescue.

"Economists in the department of

agriculture have worked out a method of forecasting hog price trends which has been thoroughly tested, and which makes it possible for the trend of the hog market to be foreseen far enough ahead and with enough general accuracy to give the farmers a better and safer basis for gauging production than they can ever get from watching the current markets," according to a department announcement. These forecasts are available to all farmers.

Since American hog production contributes nearly two-thirds of the supply of hog products in international trade, it is believed that the American farmers can in the main regulate world production and resultant market prices.

"The American hog producer can take the excessive swings out of the hog cycle simply by learning to gauge his production with an eye to the future, rather than to present price conditions," the announcement states. "As long as conditions remain as they are, basing hog production on the forecast, market trends will afford an opportunity for special and individual profits."

"In this field, as in others, the first comers will get the best pickings, becomes general, it will yield smaller As the practice of 'playing the cycle' profits for the shrewder individuals, but producers as a whole will gain through the tendency toward less extreme fluctuations in production and price."

Special Attention to Library Work For Children

A six weeks' course on school library work will be given by the New York State Library School, Albany, N. Y., July 6 to August 15. Special attention will be given to book selection for children, reference work, and teaching the use of the school library to pupils. Applicants who have had two years of college work or are normal-school graduates, not over 40 years of age, will be given preference.

JOHN M. BYE
CLOTHING COMPANY

616 Front St. Brainerd, Minn.

Portia's father was old-fashioned

In the days of Shakespeare's famous heroine, buying and selling were contests of wits. In Venice, haggling and dickering were the vogue. Along the Rialto, sharp practice was the rule. Every purchase of silk or spices was made at the buyer's risk. One had to be a shrewd judge of values and one's fellows to escape trickery.

Portia's father—a merchant—was used to the ideas of guess, luck and accident. So much so, indeed, that it seemed natural to him to entrust the choice of his daughter's husband to three closed caskets and a lucky guess!

Nowadays, we do not transact business blindly—nor leave important decisions to chance. It is not necessary for us to gamble when we buy. Commodities are identified for us by trade-marks. Manufacturers go to the advertising columns to tell us about their products. Merchants describe their merchandise—price, quality and service.

By reading advertisements, we get a knowledge of goods and stores that we can depend on. Advertising reduces chance, in buying, to a minimum.

Do you read the advertisements?

PATCHED SHOE SERVES TO MARK BURIED MAN

WIFE IDENTIFIES REMAINS AS HUSBAND, ALFRED NELSON, LITTLE FALLS

BEING HARD OF HEARING, NELSON COULD OBTAIN NO WORK, GROWING DESPONDENT

(By United Press)

St. Paul, April 29.—A patched shoe Tuesday night served to identify the already buried body of a man found last Saturday in the Mississippi river near the Ford plant.

Identification was made by his wife. The man was Alfred Nelson, 52, recently of Little Falls. His body was found near the Ford plant and lay for three days in Ramsey county morgue unidentified.

Tuesday afternoon the county buried the body in Elmhurst cemetery. The clothes were kept at the morgue.

Tuesday evening Mrs. Nelson, who works during the day at a laundry to earn money to support herself and her four children, called at the morgue with Mrs. William Yahnke, a friend. "My husband disappeared March 17," Mrs. Nelson said. "I wonder if I could see the body of the man found in the river."

She was told of the burial. Then the attendant brought out the pair of shoes taken from his body. On the sole of one near the toe was a peculiar patch.

"That was my husband," sobbed Mrs. Nelson. "Those were his shoes—I know by the patch." Other articles of clothing also were identified.

The police report of Nelson's disappearance made March 18 revealed that the family came to St. Paul last July from Little Falls and that because he was hard of hearing Nelson could find no work and became despondent.

Three of his children, Clifford, 15, Edna, 12, and Alfred, 9, attend school at Hazel Park. The fourth, Essie, 18, helps Mrs. Nelson support the family. It is likely the body will remain buried in Elmhurst cemetery.

Strictly a Ford schedule is used in making our charges for repair work. You can charge it at Lively's.

2 CENTS GAS TAX EFFECTIVE MAY 1

All Gasoline in Storage That Date Will be Subject to Such Taxation

INSPECTORS INSTRUCTED

Special Exemptions Recited For The Farmers, Other Points of Law Noted

All gasoline that is in storage on Friday morning will be subject to the new state tax of two cents per gallon, said Andrew Anderson, local oil inspector, and a close checkup will be made to see that this tax is paid.

Mr. Anderson has returned from St. Paul, where he attended a conference of all state oil inspectors relative to the new gasoline tax, and received instructions on the method of procedure under the new tax law.

All gasoline propelled vehicles using the public highways must pay the two cents tax. The only exemption to this rule is in the case of official United States government cars.

Farmers using gasoline for farm work, in stationary or tractor engines are not subject to the tax. Of course they must pay the two cents per gallon when the gasoline is purchased, but may secure a refund by making affidavit that the gasoline was not used to propel vehicles on the highways. This however, will be a very small item since the majority of the tractors use gasoline only for starting, and then switch over to kerosene for fuel.

All gasoline that is in storage in any quantity on Friday morning will be subject to the state tax, and the inspectors will make a close checkup at that time to see that the tax is paid. Each retailer will make affidavit, swearing to the amount of gasoline he has on hand May 1st, and will be required to pay the two cents tax on 97 per cent of such gasoline, three per cent being allowed him for evaporation.

Thursday is the last day of tax-exempt gasoline to motorists, and local filling stations are expecting a rush on that day, since automobile owners will want to fill the tanks on their cars before the tax is added. Automobile owners who expect to dodge payment of the tax by laying in a large supply before May 1st, are doomed to disappointment, for gasoline in storage will be taxed on Friday morning, says Mr. Anderson.

RESIGNS FROM SERVICE

John H. Mullen Leaves Highway Department to Enter Contracting Field

John H. Mullen, first assistant commissioner of the Minnesota Highway department, is resigning that position, effective May 1, to enter the contracting field, according to a letter received by County Highway Engineer Walter M. Murphy.

This letter states that as a testimonial of appreciation of Mr. Mullen's efforts and the results that he has accomplished during the 16 years of his service in the department, those of his associates and close friends who are able to be in the cities, will tender him a stag dinner at the St. Paul hotel on Thursday evening, April 30, at 7 o'clock. A splendid watch and chain, the gift of the diners, will be presented to the honor guest during the dinner.

Mr. Mullen is well known in Brainerd and vicinity, and it was through his untiring efforts that much of the trunk highway improvements locally were made. He is an ardent booster for the Brainerd lake region, and owns a summer cottage near the city.

The many local friends of the assistant commissioner will learn with regret that he is to retire from the highway department, but join in wishing him success in his new line of work.

Sale and Lunch

The ladies aid of the Swedish Bethany church will hold an auction sale and will serve a 25c lunch on Friday, May 1st at the church.

IM TO RAISE SCOUT BUDGET

Complete Check of Finances Shows
Up to Present Time \$1950.50
Pledged

PROPOSED GOAL WAS \$2860

Scouting in This Area Depends Absolutely on Healthy Financial Condition

At a meeting held on Tuesday evening, members of the Crow Wing Council, Boy Scouts of America, it was decided to continue the financial campaign until the entire amount of the proposed budget has been raised. A complete check of the finances up to the present time shows \$1,950.50 pledged. The proposed amount was \$2,860, as Brainerd's share of the area budget. As one man stated to the council, "We have just got to raise the entire amount."

Scouting in this area depends absolutely upon a healthy financial condition, it is pointed out, and the citizens of Brainerd must be sold on the idea that Scouting never has been in a better condition than it is at present. There are nearly 150 boys in the local troops and practically all of these boys are very active. One new troop has been organized this year and is functioning in an excellent manner.

Many of the boys have reached an advanced grade and during the coming few days, the first Star Scout in Crow Wing county will be made.

The finest site for a Boy Scout camp in the United States has been given to the Crow Wing Council, and the citizens of Brainerd have every reason to believe that the future of

Scouting is very bright and should warrant financial support.

One of the reasons for the incomplete returns has been the inability of some of the workers to see the entire amount of their prospects. During the next few days, these will be pushed to the limit and a canvass will be made, giving every person in the city an opportunity to do his or her bit in boosting this great boy scout movement.

The campaign committee has decided to stay with the work until the entire amount has been raised and the boys of Brainerd given every

2 CENTS GAS TAX EFFECTIVE MAY 1

All Gasoline in Storage That Date
Will be Subject to Such
Taxation

INSPECTORS INSTRUCTED

Special Exemptions Recited For The
Farmers, Other Points of
Law Noted

All gasoline that is in storage on Friday morning will be subject to the new state tax of two cents per gallon, said Andrew Anderson, local oil inspector, and a close checkup will be made to see that this tax is paid.

Mr. Anderson has returned from St. Paul, where he attended a conference of all state oil inspectors relative to the new gasoline tax, and received instructions on the method of procedure under the new tax law.

All gasoline propelled vehicles using the public highways must pay the two cents tax. The only exemption to this rule is in the case of official United States government cars.

Farmers using gasoline for farm work, in stationary or tractor engines are not subject to the tax. Of course they must pay the extra two cents per gallon when the gasoline is purchased, but may secure a refund by making affidavit that the gasoline was not used to propel vehicles on the highways. This, however, will be a very small item since the majority of the tractors use gasoline only for starting, and then switch over to kerosene for fuel.

All gasoline that is in storage in any quantity on Friday morning will be subject to the state tax, and the inspectors will make a close checkup at that time to see that the tax is paid. Each retailer will make affidavit, swearing to the amount of gasoline he has on hand May 1st, and will be required to pay the two cents tax on 97 per cent of such gasoline, three per cent being allowed him for evaporation.

Thursday is the last day of tax-exempt gasoline to motorists, and local filling stations are expecting a rush on that day, since automobile owners will want to fill the tanks on their cars before the tax is added. Automobile owners who expect to dodge payment of the tax by laying in a large supply before May 1st, are doomed to disappointment, for gasoline in storage will be taxed on Friday morning, says Mr. Anderson.

HOME COOKING LECTURES

Large Crowds Attend the Classes
Given by Brainerd Gas &

RESIGNS FROM SERVICE

John H. Mullen Leaves Highway Department to Enter Contracting Field

John H. Mullen, first assistant commissioner of the Minnesota Highway department, is resigning that position, effective May 1, to enter the contracting field, according to a letter received by County Highway Engineer Walter M. Murphy.

This letter states that as a testimonial of appreciation of Mr. Mullen's efforts and the results that he has accomplished during the 16 years of his service in the department, those of his associates and close friends who are able to be in the cities, will tender him a stag dinner at the St. Paul hotel on Thursday evening, April 30, at 7 o'clock. A splendid watch and chain, the gift of the diners, will be presented to the honor guest during the dinner.

Mr. Mullen is well known in Brainerd and vicinity, and it was through his untiring efforts that much of the trunk highway improvements locally were made. He is an ardent booster for the Brainerd lake region, and owns a summer cottage near the city.

The many local friends of the assistant commissioner will learn with regret that he is to retire from the highway department, but join in wishing him success in his new line of work.

Sale and Lunch

The ladies aid of the Swedish Bethany church will hold an auction sale and will serve a 25c lunch on Friday, May 1st at the church.

SOFIA IN FLAMES IN MANY PLACES

MYSTERIOUS FIRES CAUSE PANIC IN BULGARIAN CITY

(By United Press)
Vienna, April 29.—Sofia was in flames in many places last night. Fires breaking out mysteriously caused a panic among the inhabitants, according to Sofia dispatches. Handbills appeared charging the military with arson for the purpose of driving Communists from hiding. The official version is that Communists set the fires, then circulated the handbills to create discontent with the Zankoff regime.

Forwarding orders, changes of address cannot be accepted, neither can money order, registry, C. O. D., or postal savings business be transacted over the phone.

Prompt report to the Postmaster of any irregularity or discourtesy of an employee and any request or suggestion for improvement in the service is expected and will be appreciated.

IM TO RAISE SCOUT BUDGET

Complete Check of Finances Shows
Up to Present Time \$1950.50
Pledged

PROPOSED GOAL WAS \$2860

Scouting in This Area Depends Absolutely on Healthy Financial Condition

At a meeting held on Tuesday evening, members of the Crow Wing Council, Boy Scouts of America, it was decided to continue the financial campaign until the entire amount of the proposed budget has been raised. A complete check of the finances up to the present time shows \$1,950.50 pledged. The proposed amount was \$2,860, as Brainerd's share of the area budget. As one man stated to the council, "We have just got to raise the entire amount."

Scouting in this area depends absolutely upon a healthy financial condition, it is pointed out, and the citizens of Brainerd must be sold on the idea that Scouting never has been in a better condition than it is at present. There are nearly 150 boys in the local troops and practically all of these boys are very active. One new troop has been organized this year and is functioning in an excellent manner.

Many of the boys have reached an advanced grade and during the coming few days, the first Star Scout in Crow Wing county will be made.

The finest site for a Boy Scout camp in the United States has been given to the Crow Wing Council, and the citizens of Brainerd have every reason to believe that the future of

Scouting is very bright and should warrant financial support.

One of the reasons for the incomplete returns has been the inability of some of the workers to see the entire amount of their prospects. During the next few days, these will be pushed to the limit and a re-canvas will be made, giving every person in the city an opportunity to do his or her bit in boosting this great boy scout movement.

The campaign committee has decided to stay with the work until the entire amount has been raised and the boys of Brainerd given every

opportunity to enjoy the benefits of Scouting to the same extent that boys in thousands of other communities are benefiting.

STOP THAT BACKACHE!

Many Brainerd Folks Have Found the Way

Is a dull, nerve-racking backache wearing you out? Do you feel older and slower than you should? Are you tired, weak and nervous; find it impossible to be happy, or enjoy the good times around you? Then there's something wrong and likely it's your

kidneys. Why not get at the cause? Use Doan's Pills—a stimulant diuretic to the kidneys. Your neighbors recommend Doan's. Read what this Brainerd resident says:

Carl Sorman, 709 S. Broadway, says: "My back pained continually. Mornings I was stiff and sore and I couldn't stoop without getting a knife-like jab across my kidneys. My kidneys acted too frequently and caused me annoyance. I used Doan's Pills from Skauge's Drug Co. and they fixed me up in fine shape."

'GOOSE' GOSLIN NEW HERO OF THE DIAMONDBy HENRY L. FARRELL
(United Press Sports Editor)

New York, April 29.—"Come on, Goose!" is getting to be a cry around the American League circuit almost as familiar as the old roar—"Hit one, Babe!"

Leon Goslin, left fielder for the world's champion Washington Senators, known among his teammates and to fans in general as "the Goose," easily was the sensation of the early season in the American League and he seems on the way to become the biggest star in the game.

"Everything that fellow does is right. He can't seem to go wrong," an official of the New York Yankees said during one of the early games of the season when the Goose blew a game right out from under the New York club.

Goslin hits the ball harder than any player in baseball with the exception of the Babe. Give him time and he may be able to get as much distance as the Babe in his drives. Certainly there is no player in the game today who has as many Ruthian resemblances in his game as the Goose.

He stands at the plate just like Ruth. He takes the same toe-hold and swings with all his power like the Babe. He has a splendid eye and coordination almost as perfect as the home-run king's.

It may be taken as treason to compare any hitter in the game today to the one and only Babe, but the Goose is catching the eye of critics who know that the Babe is speeding to the end of his career and that some one will step up to take his place in the public's heart.

The Goose is 26 years of age. He weighs 180 pounds and has a pair of shoulders that would bring joy to the heart of a football coach. He is almost as perfectly set up as George Sisler, who is the physical Adonis of the major leagues.

Goslin has come out sensationally in less than a year. Up to mid-season last year the Goose was regarded as just a ball player on the Washington Senators. He came in leaps and bounds in the last quarter of the race when the Senators were making a heroic drive for the pennant and he arrived in full glory during the world's series when he was one of the outstanding stars. He is still getting better and there is no telling to what heights he will ascend. It is quite certain now that he is no flash in the pan.

Goslin has that color in him that is so necessary to a player who hopes to get into the public eye. He has a pleasing personality and a magnetism that appeals to the stands. He hasn't the tremendous personality of the Babe, but that is not to his discredit, because no player may ever have the same romance around him that made the Babe the greatest drawing card and the most popular player in the history of baseball.

Ames Grid Star Awarded Scholarship in U. of C.

Ames, Ia., April 29.—Roy L. Longstreet, center of the Iowa State college football team for the past three seasons, who graduates from the department of animal husbandry this spring, has been awarded a scholarship in the college of commerce of the University of Chicago by the Institute of Meat Packers.

WASHINGTON, GIANTS SHOW THEIR TRUE FORM**WORLD'S CHAMPIONS GO ABOUT THEIR WORK WITH ENTHUSIASM****McGRAW'S CLAN LOOKS LIKE BEST TEAM IN THE NATIONAL**

By HENRY L. FARRELL
New York, April 29.—Early season form is far from infallible, but it gives a fairly good line on where a good team is going in the major league pennant races.

So far the New York Giants and the Washington Senators are the class of the majors and it is worth a bet that they will win the pennant, according to the condition of things apparent yesterday.

With nine victories in their 11 starts, the Giants are way out in front in the National league. It is true that they have been feasting upon rather easy opposition from Boston and a Brooklyn club, that hasn't found itself yet.

The Senators are in a tie for first place with the dashing Philadelphia Athletics, and their position means much because they were forced to play two series with their most formidable rivals, the New York Yankees.

The most impressive thing about the Senators is the winning spirit the club is showing. They seem to have forgotten entirely that they won the pennant and they are showing the same college boy enthusiasm that carried them through their heroic drive to the world championship last year. It takes a good manager and level-headed players to keep from getting puffed up with such success as the Senators had last year.

The New York Yankees and the Detroit Tigers, which were expected to be very much in the American league pennant race, have gone completely to pieces and are way down in the second division.

The Tigers may get out of it, but the Yankees may be in a very bad way, as the pitching staff seems to have blown up.

The Athletics perhaps are the most interesting team in the major leagues. Connie Mack seems to have found a team at last, after his years of searching. Some of his players are hitting way over their heads, but his pitchers are working in splendid form. Lefty Groves has not done a thing so far, but all the Philadelphia fans feel that he will be a big winner as soon as he forgets that Connie Mack paid \$100,000 for him.

The Cincinnati Reds are playing in hard luck again. Four regulars are out of the game, and the Cubs have worked into a tie with them for second place.

The Brooklyn Robins are getting back on their feet, but the Pittsburgh Pirates are still unable to get started.

COLLEGE SWIMMING LEAGUE IN EAST CHANGES ITS RULES

New York, April 29.—Delegates of Yale, Princeton, Pennsylvania, Columbia, City college, Navy, Rutgers, Brown and Amherst attended the second session of the spring meeting of the Intercollegiate Swimming association at New York A. C.

Most of the afternoon was devoted to the new aquatic rules recently adopted by the National Collegiate A. A., and while the majority were approved, some with slight changes, a few were rejected. Among the latter were the requirements provided for breast stroke swimming. The revised rules call for wide opening of the knees in the kick, and the I. S. A. representatives thought this step reactionary and undesirable, as the latest type of breast stroke prescribes a comparatively narrow spread. The I. S. A. rules were retained.

The new system for scoring in fancy diving was accepted, and the judges hereafter will have to display cards showing the awards they make for each dive and the average of their awards will constitute the score, instead of each judge figuring the entire contest on his own sheet.

Gets Pleasant Surprise
"About six months ago my father was very sick with his stomach, which had been troubling him for several years. Three doctors said he had cancer and one said it was gall stones—all agreed an operation was necessary, but on account of his age I was afraid to risk it. I told a friend about it who said his wife had been through the same trouble and had been cured by taking Mayr's Wonderful Remedy. I at once bought a bottle for father and he is now as strong as a bear and can eat more ham and cabbage than any three men. It removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at Johnson's Pharmacy, Economy Drug Co. and druggists everywhere.—Adv't.

HELP KIDNEYS**BY DRINKING****MORE WATER**

Take Salts to Flush Kidneys and Help Neutralize Irritating Acids

Kidney and bladder irritations often result from acidity, says a noted authority. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin drinking lots of soft water, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation to the bladder and urinary organs, which then act normal again.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad Salts causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink which may quickly relieve your bladder irritation. By all means have your physician examine your kidneys at least twice a year.—Adv't.

'GOOSE' GOSLIN NEW HERO OF THE DIAMONDBy HENRY L. FARRELL
(United Press Sports Editor)

New York, April 29.—"Come on, Goose!" is getting to be a cry around the American League circuit almost as familiar as the old roar—"Hit one, Babe!"

Leon Goslin, left fielder for the world's champion Washington Senators, known among his teammates and to fans in general as "the Goose," easily was the sensation of the early season in the American League and he seems on the way to become the biggest star in the game.

"Everything that fellow does is right. He can't seem to go wrong," an official of the New York Yankees said during one of the early games of the season when the Goose blew a game right out from under the New York club.

Goslin hits the ball harder than any player in baseball with the exception of the Babe. Give him time and he may be able to get as much distance as the Babe in his drives. Certainly there is no player in the game today who has as many Ruthian resemblances in his game than the Goose.

He stands at the plate just like Ruth. He takes the same toe-hold and swings with all his power like the Babe. He has a splendid eye and coordination almost as perfect as the home-run king's.

It may be taken as treason to compare any hitter in the game today to the one and only Babe, but the Goose is catching the eye of critics who know that the Babe is speeding to the end of his career and that some one will step up to take his place in the public's heart.

The Goose is 26 years of age. He weighs 180 pounds and has a pair of shoulders that would bring joy to the heart of a football coach. He is almost as perfectly set up as George Sisler, who is the physical Adonis of the major leagues.

Goslin has come out sensationally in less than a year. Up to mid-season last year the Goose was regarded as just a ball player on the Washington Senators. He came in leaps and bounds in the last quarter of the race when the Senators were making a heroic drive for the pennant and he arrived in full glory during the world's series when he was one of the outstanding stars. He is still getting better and there is no telling to what heights he will ascend. It is quite certain now that he is no flash in the pan.

Goslin has that color in him that is so necessary to a player who hopes to get into the public eye. He has a pleasing personality and a magnetism that appeals to the stands. He hasn't the tremendous personality of the Babe, but that is not to his discredit, because no player may ever have the same romance around him that made the Babe the greatest drawing card and the most popular player in the history of baseball.

Ames Grid Star Awarded Scholarship in U. of C.

Ames, Ia., April 29.—Roy L. Longstreet, center on the Iowa State college football team for the past three seasons, who graduates from the department of animal husbandry this spring, has been awarded a scholarship in the college of commerce of the University of Chicago by the Institute of Meat Packers.

WASHINGTON, GIANTS SHOW THEIR TRUE FORM**WORLD'S CHAMPIONS GO ABOUT THEIR WORK WITH ENTHUSIASM****MCGRAW'S CLAN LOOKS LIKE BEST TEAM IN THE NATIONAL**

By HENRY L. FARRELL
New York, April 29.—Early season form is far from infallible, but it gives a fairly good line on where a good team is going in the major league pennant races.

So far the New York Giants and the Washington Senators are the class of the majors and it is worth a bet that they will win the pennant, according to the condition of things apparent yesterday.

With nine victories in their 11 starts, the Giants are way out in front in the National league. It is true that they have been feasting upon rather easy opposition from Boston and a Brooklyn club that hasn't found itself yet.

The Senators are in a tie for first place with the dashing Philadelphia Athletics, and their position means much because they were forced to play two series with their most formidable rivals, the New York Yankees.

The most impressive thing about the Senators is the winning spirit the club is showing. They seem to have forgotten entirely that they won the pennant and they are showing the same college boy enthusiasm that carried them through their heroic drive to the world championship last year. It takes a good manager and level-headed players to keep from getting puffed up with such success as the Senators had last year.

The New York Yankees and the Detroit Tigers, which were expected to be very much in the American league pennant race, have gone completely to pieces and are way down in the second division.

The Tigers may get out of it, but the Yankees may be in a very bad

way, as the pitching staff seems to have blown up.

The Athletics perhaps are the most interesting team in the major leagues. Connie Mack seems to have found a team at last, after his years of searching. Some of his players are hitting way over their heads, but his pitchers are working in splendid form. Lefty Groves has not done a thing so far, but all the Philadelphia fans feel that he will be a big winner as soon as he forgets that Connie Mack paid \$100,000 for him.

The Cincinnati Reds are playing in hard luck again. Four regulars are out of the game, and the Cubs have worked into a tie with them for second place.

The Brooklyn Robins are getting back on their feet, but the Pittsburgh Pirates are still unable to get started.

COLLEGE SWIMMING LEAGUE IN EAST CHANGES ITS RULES

New York, April 29.—Delegates of Yale, Princeton, Pennsylvania, Columbia, City college, Navy, Rutgers, Brown and Amherst attended the second session of the spring meeting of the Intercollegiate Swimming association at New York A. C.

Most of the afternoon was devoted to the new aquatic rules recently adopted by the National Collegiate A. A., and while the majority were approved, some with slight changes, a few were rejected. Among the latter were the requirements provided for breast stroke swimming. The revised rules call for wide opening of the knees in the kick, and the I. S. A. representatives thought this step reactionary and undesirable, as the latest type of breast stroke prescribes a comparatively narrow spread. The I. S. A. rules were retained.

The new system for scoring in fancy diving was accepted, and the judges hereafter will have to display cards showing the awards they make for each dive and the average of their awards will constitute the score, instead of each judge figuring the entire contest on his own sheet.

FOR RENT—Two modern apartments in the Bear block. Inquire of Henry I. Cohen, Iron Exchange building. 2677-27716

Gets Pleasant Surprise

"About six months ago my father was very sick with his stomach, which had been troubling him for several years. Three doctors said he had cancer and one said it was gall stones—all agreed an operation was necessary, but on account of his age I was afraid to risk it. I told a friend about it who said his wife had been through the same trouble and had been cured by taking Mayr's Wonderful Remedy. I at once bought a bottle for father and he is now as strong as a bear and can eat more ham and cabbage than any three men. It removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at Johnson's Pharmacy, Economy Drug Co. and druggists everywhere.—Advt.

GOOD rooms at National Hotel, by day or week, prices reasonable. Mrs. A. G. Robertson, proprietor, 610½ Laurel St. Office upstairs. 1908-2011f

FOR RENT—Attractive apartments, steam heated, electric lighted, with gas and bath. Also desirable store, centrally located R. R. Wise, phone 197. 2058-2201f
